

Background

For more than 55 years, the Wisconsin Hospital Association has honored individuals who have served the health care community. WHA's annual awards have recognized a broad array of health care executives, public officials, health care trustees, auxiliaries, clergy, educators, and physicians for their extensive service in support of health care.

Awards are traditionally presented at the WHA convention each fall, although arrangements have been made to present awards at other opportunities throughout the year that may be more convenient to the award recipient.

The Nomination Process

Nominations for award winners should be received no later than July 30, 2010. Nominations for the Distinguished Service Award and the Trustee Award should be submitted to WHA's Nominating and Awards Committee, which will consider them at its summer meeting. Nominations for the ACHE Young Healthcare Executive Award are submitted to the College's Regents Advisory Council Award Committee, which will consider them in late summer.
