

CheckPoint Top Performer Toolkit *for WHA Hospital Members*

On behalf of WHA and the Quality Team, we are thrilled to recognize your hospital as a CheckPoint top performer.

Achieving top performer status means your hospital is in the top 10% for a specific measure, as indicated by a star next to each measure result where top performer status is achieved. Your hospital earned this recognition for one or more measures within one or multiple measure family categories.

To make it easy to share this achievement with your community, we created this toolkit as a resource for your hospital. Inside, you'll find sample social media posts that can be personalized to highlight your achievement, along with accompanying graphics.

If you have any questions, please contact WHA's Director of Marketing and Communications [Katelyn Hopman](#).

Sample social media text

OPTION 1 – ONE MEASURE:

We're proud to share that **[HOSPITAL NAME]** has been recognized as a **CheckPoint Top Performer** by the Wisconsin Hospital Association!

Our team achieved Top Performer status in the **[MEASURE FAMILY/CATEGORY]** category, placing us among the **top 10% of Wisconsin hospitals** for this measure.

This recognition reflects our ongoing commitment to quality, patient safety and delivering the best possible care to our patients and communities.

Congratulations to our entire team for this outstanding achievement!

OPTION 2 – MULTIPLE MEASURES:

We're proud to share that **[HOSPITAL NAME]** has been recognized as a **CheckPoint Top Performer** by the Wisconsin Hospital Association!

[HOSPITAL NAME] earned Top Performer status in the following measure family categories:

- **[CATEGORY 1]**
- **[CATEGORY 2]**
- **[CATEGORY 3]**

Top Performer status recognizes hospitals that rank in the **top 10% for a specific quality measure**.

We're honored to have our commitment to quality and patient safety recognized, and we thank our entire team for making this achievement possible!
