Global Vision Community Partnership Award

*Rewarding partnerships for your
community's health*

The Award

The Global Vision Community Partnership Award was established in 1993 by the Wisconsin Hospital Association (WHA) Foundation.

The Award's goal is to provide recognition, financial support and public awareness of a community health initiative or project, created in partnership with a WHA member, that successfully addresses a documented community health need. Partnerships must reach across the community or population served, and the program must be an active, ongoing enterprise at the time of the nomination.

The 2020 Program

The Award is designed to recognize ongoing community initiatives that may be models for addressing community needs for other regions of the state. By requiring the project to be in existence for two years, the award acknowledges initiatives that are sustainable and demonstrate meeting documented needs and producing measurable outcomes.

Award Criteria

To be eligible for selection, the project must:

- Be nominated by a WHA hospital member.
- Be an ongoing program, in existence for a minimum of two years (excluding development time).
- Address a documented community health need.
- Use a creative or innovative approach to addressing the need.
- Incorporate a collaborative approach or partnership in development and implementation of the program.
- Produce measurable results.

Nomination Process

Any Wisconsin Hospital Association hospital member can nominate a project for the Award. Complete the nomination form contained in this brochure. Completed nominations must be received by the WHA Foundation by July 24, 2020.

Award Selection Process

A panel of judges will select the winning projects. All nominees will be notified of the final selection.

Winners will receive a commemorative plaque and a \$2,500 unrestricted grant for the winning program.
