

## Registration Open for 2023 Wisconsin Quality Residency

Registration is open for the 2023 cohort of the Wisconsin Quality Residency Program offered by WHA in cooperation with the Rural Wisconsin Health Cooperative and co-sponsored by the Wisconsin Office of Rural Health.

First launched in 2014, the program is designed to engage new and novice hospital quality improvement leaders in a 12-month track of education, leadership training and networking—all critical for success in the first two years on the job. The program provides a comprehensive curriculum of core quality improvement concepts and leadership essentials instructed by experts in the field.

The program will run from **January 2023 through January 2024** and will include learning modules covering foundational topics, including regulatory and accreditation requirements, quality improvement concepts, collecting data for analysis and decision-making and more. This program is a great opportunity for new quality leaders and quality staff. Program participants will have access to peer networking and coach calls, a dedicated email group for networking between sessions and experienced quality leaders throughout Wisconsin for support.
