Wisconsin Hospitals Recognized as CheckPoint Top Performers

WHA is pleased to recognize Wisconsin hospitals achieving CheckPoint Top Performer status based on the most recently reported performance data.

Hospitals earning this distinction achieved results within the top 10% of Wisconsin hospitals on one or more CheckPoint quality measures. Top Performer recognition highlights organizations demonstrating exceptional performance and a commitment to improving quality, strengthening patient safety and achieving better outcomes for patients.

Participating hospitals will receive a Top Performer certificate identifying the measure family or families in which top-performing results were achieved. In addition, WHA is providing a social media toolkit with sample graphics and messaging to help hospitals share this accomplishment with employees, governing boards and community stakeholders.

Performance improvement requires commitment across the organization. These achievements reflect the work of the physicians, nurses, clinical teams, support staff, quality professionals and leaders who work together to advance excellence in care delivery.

WHA congratulates all organizations receiving Top Performer recognition and thanks them for their ongoing commitment to providing high-quality care for Wisconsin patients and communities.
