Register Today for Part 2 of the WHA WI Health Care Workforce Webinar Series: Relieve Workforce Burden

When regulatory requirements are viewed as unnecessary, confusing or overly burdensome, they can threaten workforce well-being and unnecessarily hinder care and access. Ultimately, this makes regulatory burden both a workforce issue and a patient care issue.

Join WHA Senior Vice President of Workforce and Clinical Practice Ann Zenk and WHA General Counsel Matthew Stanford on **Tuesday, Sept. 22 at 9:00 a.m.** for an informative and interactive session where participants will learn about the impact of unnecessary regulation on the health care workforce and have an opportunity to share ways to actively reduce regulatory burden on patient care teams.

For more information about this complimentary webinar, including registration, click the button below.
