## Register for WHA's Financial Workshop

Hospital finance leaders and staff are invited to attend an in-person workshop focused on key state and federal regulatory updates, current compliance requirements, and the evolving health care finance landscape. This one-day event also offers a valuable opportunity to connect and network with peers from Critical Access Hospitals across Wisconsin.

The Wisconsin Office of Rural Health, a WHA corporate member, is funding this workshop.

- By participating in this program, attendees will be able to:
- Explain current state and federal regulatory requirements and trends shaping the health care financial landscape.
- Describe cost reporting requirements and financial planning strategies specific to Critical Access Hospitals and Rural Health Clinics.
- Summarize recent updates in health care reimbursement.
- Analyze how patients are using price transparency data, including common misconceptions and areas for improvement.
- Apply price transparency data in financial scenario modeling with both internal teams and external consultants.
- Identify common market assumptions that can be tested using price transparency data.
- Review key reimbursement changes and their implications for hospital finance operations.

For questions regarding the content of this event, please reach out to WHA Clinical Quality Improvement Manager Jenny Pritchett.
