Community Benefits Survey Data Due July 14

WHA is currently collecting fiscal year 2025 data for the 2026 Community Benefits Report, with survey submissions due July 14. The information collected will be used to develop WHA's annual Community Benefits Report and interactive online resources, showcasing the significant impact Wisconsin hospitals and health systems have on the communities they serve.

The Community Benefits Report highlights the many ways Wisconsin hospitals and health systems strengthen the communities they serve beyond providing high-quality health care. In fiscal year 2024, Wisconsin hospitals reported providing \$2.2 billion in community benefits. From charity care and subsidized health services to workforce development, community health improvement initiatives and investments that address social drivers of health, hospitals play a vital role in supporting the health and well-being of Wisconsin residents.

Hospitals that have not yet completed their survey are encouraged to submit their data by July 14. To view the most recent Community Benefits Report, [click here](#). For questions, please contact communications@wha.org.
